MAY SUE WORKS BOARD.

A Smoke Consumer Must Be Used at Tomlinson Hall,

Building Inspector Bedell went before the Board of Works yesterday and served notice that Tomlinson Hall must be provided with a smoke consumer, or he will prosecute the board for failure to obey the smoke consuming ordinance. He said he had been endeavoring to compel owners of large buildings and factories to place smoke consuming devices on their furnaces, but he had often been confronted with the remark: "Why didn't the city comply with the ordinance by placing a consumer at Tomlinson Hall?" He said he will insist on the city doing its duty. The board may purchase hard coal for use at Tomlin-Hall the rest of this spring, and will then install a consumer next fall.

Works Board Affairs.

Lincoln lane residents were before the Board of Works yesterday protesting against the proposition to allow the street car company to take up its tracks in Lincoln lane and put them in South East street. The board answered that the matter was now before the street car company, but advised the South Side people to agree on the extension proposition, so that something can be done. One delegation wants the South East-street line extended, and suggested that the Lincoln lane part of the Garfield Park line might be abandoned. This caused the controversy.

The New Telephone Company made a int to the board that the Indianapois Light and Power Company is placing its wires beneath those of the telephone company on Muskingum street. Mr. Sheerin, of the telephone company, says it has been the rule for each company to overconstruct the other according to precedence in the street. Chairman Sahm suggested that the telegraph and telephone companies and the hot water heating and electric companies get together and see if they cannot agree on the pole and wire question before referring the question to the board.

\$100,000 IN FORGED PAPER.

Bank Cashier Johnson Charged with Covering Up Alleged Shortage.

NILES, Mich., March 13 .- The directors of the suspended First National Bank today filed a declaration against Charles A. Johnson, the missing cashier of the bank, alleging that forgeries amounting to \$100,000 against leading citizens of this county have been committed by him. It was found that there was a quantity of forged paper held by the institution. Bank 747 Examiner Selden filed papers with the county clerk at St. Joseph attaching all of Johnson's property, but it will not cover the shortage by many thousands. No trace of Johnson was discovered to-day. Of the forged paper found \$20,000 was against T L. Wilkinson, of St. Joseph, a member of the abstract firm of Dix & Wilkinson, which did a large business with the bank.
